Annex 2

Background

Conflicts of interest may arise from time to time in the course of the activities and decisions of persons associated with Transparency International Greenland as a board member or staff member. These conflicts of interest may arise in their work for the TI movement with regard to pecuniary or financial interests, or interests that impede them in their duty to act in the best interests of TI Greenland and the wider movement.

1. Applicability

This policy applies, except as otherwise stated, to every person associated with TI Greenland as a Board member or staff member. The “interests of any person associated with TI Greenland” include the interests of that person’s spouse or partner.

2. General Policy

- a. Every person associated with TI Greenland (as defined in paragraph 1) must avoid or manage any potential, real or perceived conflict of interest (*inter alia* by refraining from any decision making or voting on matters subject to a potential conflict of interest), an openly acknowledge and potential or actual conflict of interest which arises through his/her association with TI Greenland.
- b. Members of the Board of TI Greenland and staff shall declare their financial and non-financial interests which could potentially lead to or could be perceived as a conflict of interest. Such declaration shall be made by way of a register, which shall be open to the public. Where there are personal safety or similar serious concerns about full publicity, parts or even the whole of the declaration should be submitted to the Chair of TI Greenlands Ethics Committee (see para. 7), who shall hold it, and act upon it as appropriate, in confidence.
- c. TI Greenland’s efforts to raise the ethical standards of government officials, business people and other individuals could be compromised by any ethical lapses on the part of the Board members and staff members. It is essential that everyone associated with TI Greenland (as defined in para.1) be highly sensitive to potential conflicts of interest.

3. Remunerated Work Contracts and Consultancies

- a. Members of TI Greenland’s Board or companies or other organizations with which such Members are currently affiliated, may not perform remunerated work for TI Greenland.

However, in exceptional circumstances, when agreed by the Board, member may be remunerated for work relating to an approved TI Greenland project which is clearly distinct from his/her role as a Board member.

- b. Members of TI Greenland's Board, or companies or other organizations with which such members are currently affiliated, may apply and compete for remunerated work contracts with any National Chapter or with the TI Secretary, provided they are not offered any advantages over any competitors, with respect to being awarded or carrying out such work. They must not utilize privileged information for personal benefit and do everything reasonable to contradict the perception of having utilized privileged information; in addition, they will not exercise their Board function to the extent it relates to the conditions of the contractor the selection or supervision of such contract. In other words, they do not need to be disqualified in such cases because of their affiliation with TI Greenland, but neither may they be given the "inside track".
- c. When doing non-TI related work, TI Greenland Board members or their companies shall not utilize privileged TI Greenland information for personal benefit.
- d. TI-Greenland will be transparent in its decision-making processes when commissioning paid work.

4. Gifts and Entertainment

No person associated with TI Greenland shall accept any gift, entertainment, loan or anything else of value from any organization or individual if it could be reasonably constructed or perceived that the gift is motivated by a wish to influence TI Greenland and/or the TI movement.

5. How to Deal with a Possible Conflict of Interest

- a. Potential conflicts of interest should be identified and declared by the person in potential conflict, or reported by others as soon as they become aware of such potential conflict of interest. If problems are identified before commitments are made or questionable actions have occurred, embarrassment can be avoided and alternatives can be explored.
- b. Such disclosure or report should be made to the Chair of TI Greenland's Ethics Committee.
- c. The evaluation of a potential conflict of interest must be made by the Ethics Committee of TI Greenland's Board (see para.7) or by un-involved individuals such as members of the board. The evaluation may determine the absence of a conflict of interest, or it may lead to the conclusion that (i) the person facing a potential conflict of interests should not go ahead with the evaluated activity or that (ii) he/she should refuse him/herself from participating in decision making by TI Greenland with reference to the matter of conflict.

- d. The Chairperson of TI Greenland's Board is responsible for ensuring that all persons associated with TI Greenland (as defined in para.1) are made aware of the policy and procedures regarding potential conflicts of interest. This Code of Conduct/Conflict of Interest Policy should be brought to the attention of TI Greenland members through electronic or other means.

6. Disclosure of Payment

When a TI National Chapter or the TI Secretary makes payments – excluding approved expenses and per diems for Board or project-related business – to a member of TI Greenland's Board, this should be declared in full in the annual accounts and annual report of TI Greenland.

7. TI Greenland Board's Ethic Committee
